

Environmental Policy Statement

Introduction

Continental Installations Ltd accepts that it has a responsibility to the principles of sustainability and environmental awareness as summarised by the ISO 14001:2004 standard.

Policy Statement

Continental Installations Ltd recognises the social and economic importance of protecting the environment; that its commitment to this must encompass all activities and that it is prepared to lead by example in promoting a sensitive attitude to the environment. Our approach to managing our environmental issues is compliant to ISO 14001:2004.

Aims

To achieve good environmental standards in all activities including the reduction, re-use, recycling and disposal of waste ,to make economic use of energy, water and transport useage to minimise waste in all aspects of the business function, to regularly assess the environmental impact resulting from business operations and to remain fully informed of recognised best practices and to communicate this Environmental Policy Statement and Action Plan updates to all interested parties including customers, suppliers and employees to encourage their active involvement in environmental issues.

Responsibility

The Managing Director has the overall and final responsibility for the Environmental Policy with the Environmental Committee in charge of the co-ordination, implementation and monitoring of the policy throughout the organisation. The Environmental Policy and Action Plan update will be communicated to all staff and will be displayed on the staff notice board. Each member of staff takes responsibility for their own work area. Copies may be made available to customers on request. The policy will be reviewed quarterly and any updates will be distributed throughout the Company.
